

Free Fare Program

The Free Fare program affords greater mobility to Access Paratransit riders by providing more travel options. It is automatically available to all individuals who were granted eligibility for Access Paratransit. It enables individuals to ride fixed-route buses and Metro rail at no cost.

There is no registration for the Free Fare program. A rider can simply present the Access Paratransit ID card as fare at the time of boarding the bus or rail. Using the Free Fare program does not affect a rider's current eligibility for Access Paratransit.
