BOARD BOX ITEM #1

AUGUST 19, 2011

TO: BOARD OF DIRECTORS

FROM: ANDRE COLAIACE, DEPUTY EXECUTIVE DIRECTOR, PLANNING AND GOVERNMENTAL AFFAIRS

RE: RECAP OF RECENT LEGISLATIVE/MEDIA ACTIVITIES

Federal Legislative Activities: APTA reports: "An initial analysis of the Act (the recently passed law to raise the debt limit) reveals no specific impact on transportation accounts or the Highway Trust Fund/Mass Transit Account (HTF/MTA). Spending authority from the HTF/MTA is treated as mandatory spending, and thus not subject to the discretionary spending caps set forth in the Act. The Act does not provide for any additional revenues, to any federal accounts, and thus does nothing to ensure the solvency of the HTF/MTA. As a result, the scenario facing House and Senate transportation authorizing committees remains unchanged. It is expected that House Transportation and Infrastructure Chairman John Mica will continue to proceed with his six-year bill at revenue-constrained funding levels. While the leadership of the Senate Environment and Public Works (EPW) Committee, which has jurisdiction over the federal highway program, has proposed a two-year authorization bill that funds transit and highway programs at current levels, it is not clear how the Act will affect efforts to raise the estimated \$12 billion needed to fund that bill."

On July 21, our federal advocate Len Simon came to Los Angeles for a meeting of the United States Conference of Mayors. In between events at the Conference, we spirited Len away to take a tour of our new administrative offices in El Monte and to also get a close-up look at our contractor, San Gabriel Transit. We followed the tour with a lunch with Access staff. Chairman Doran Barnes and Director of Government Affairs for Foothill Transit, David Reyno, were also kind enough to attend to meet Len and discuss the latest news from Washington.

Local Legislative Activities: Matthew Avancena and Giovanna Gogreve attended a White House Roundtable on Transportation with Deputy FTA Administrator Therese McMillan on the campus of Cal State-Northridge. Matthew and Giovanna gave an update to the Administrator about some of the innovative projects that we have in the works. Matthew also expressed our support for the Consolidated Specialized Transportation Grant program (APTA's Coordinated Mobility Initiative) which would replace the 5310, New Freedom and JARC programs with one program. We think by consolidating these programs it will give agencies more flexibility to develop innovative initiatives to provide additional services to people with disabilities.

I made a presentation in early August at the APTA Sustainability and Public Transportation Workshop on the concept of "ADA Paratransit Sustainability." My presentation focused on how the costs of ADA paratransit are making up a growing portion of transit agency budgets and how a focus on mobility choices and other strategies can help reduce the growth of paratransit costs.

If you have any concerns or questions, please feel free to contact me at 213/270-6007.

BOARD BOX ITEM #2

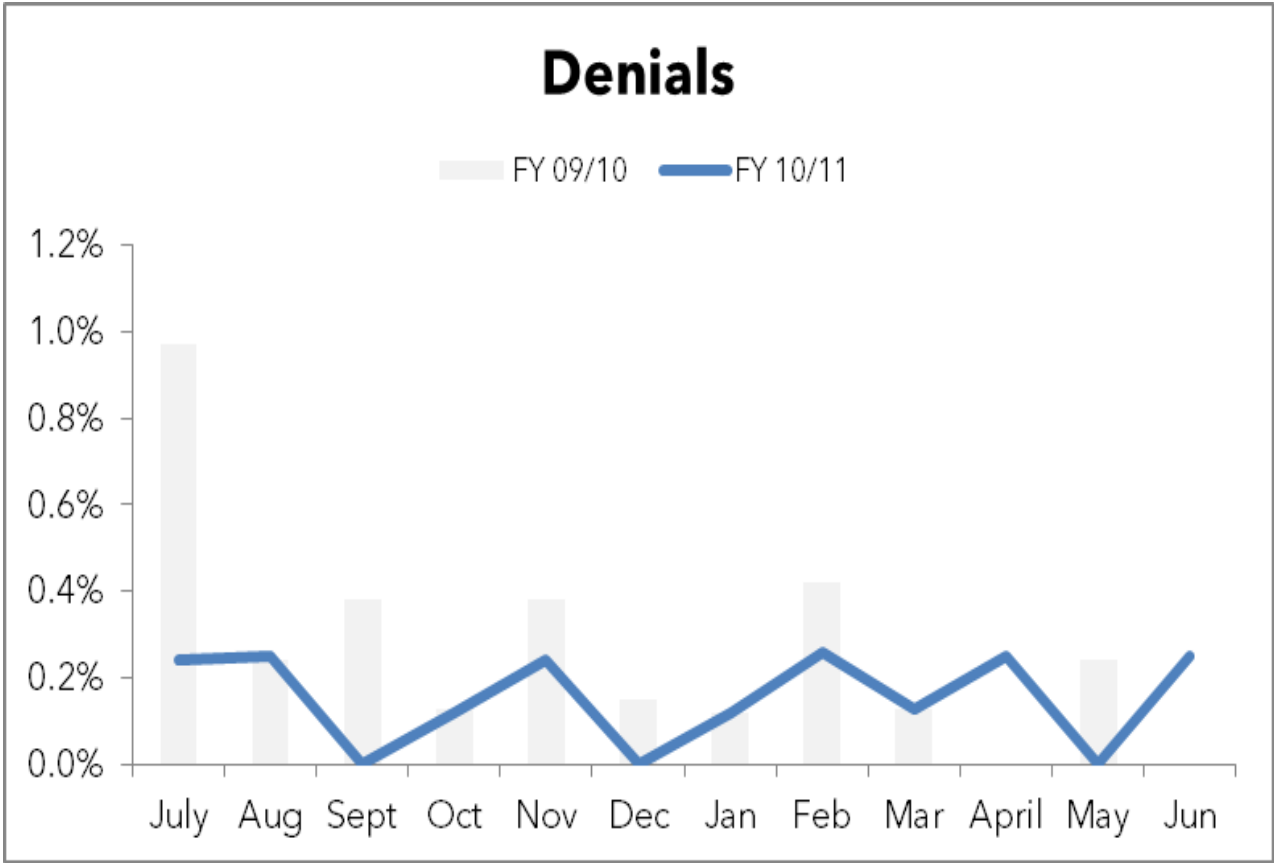

AUGUST 19, 2011

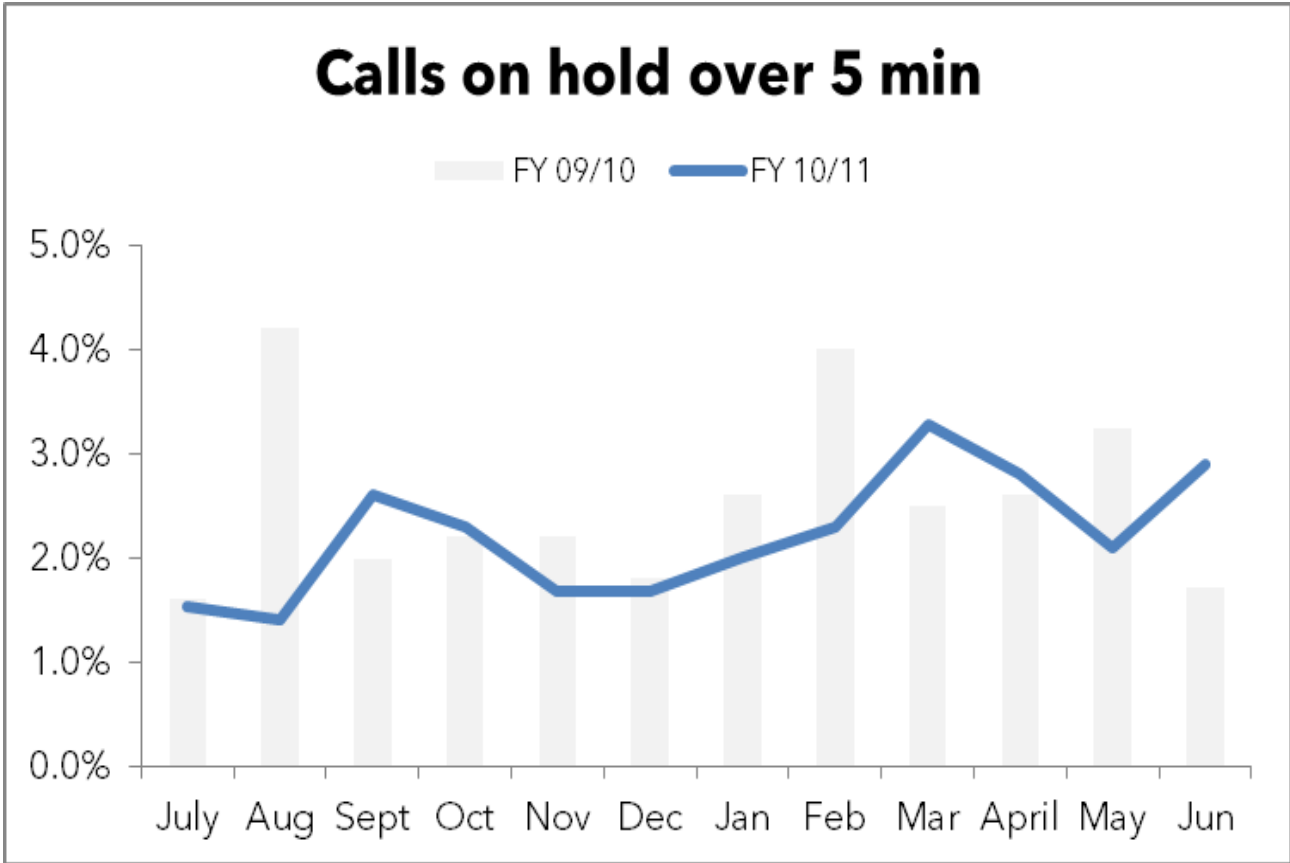

TO: BOARD OF DIRECTORS
FROM: **CJ SMITH, OPERATIONS ANALYST**
RE: KEY PERFORMANCE INDICATORS

The following graphs represent key system indicators for the fiscal year as of June 2011. The goal of this communication is to keep everyone informed of the current service performance level in the field.

The operations team uses this and other performance information to monitor our service providers' performance. Information is also used to determine the level of service that our customers are experiencing when using Access.

BOARD BOX ITEM # 3

AUGUST 19, 2011

TO: BOARD OF DIRECTORS

FROM: KANDY KUO, MANAGER OF FINANCE

RE: **FINANCIAL REPORT FOR JUNE 2011 (unaudited results)**

Attached for your review are the draft financial reports for June 2011.

Approved FY 2010/11 Budget to Actual Fiscal Year-to-Date Comparison:

- ◆ Passengers: 0.6% under budget
- ◆ Contract Revenue Miles: 2.8% under budget
- ◆ Trips: 0.4% under budget
- ◆ Completed Eligibility Interviews: 25.6% over budget
- ◆ Average Trip Distance: 2.4% under budget at 9.3 miles
- ◆ Total cost per Passenger (before depreciation): 0.1% under budget
- ◆ Administration Function is 8.1% under budget
- ◆ Eligibility Determination Function is 0.7% under budget
- ◆ Paratransit Operations Function is 0.1% under budget

Attached are the following reports for your review:

- ◆ Statistical Comparison: June 2010 to June 2011
- ◆ Expenses by Functional Area
- ◆ Budget to Actual Comparison of Statistics
- ◆ YTD Budget Results
- ◆ Graph: YTD PAX Cost Comparison
- ◆ Detailed Financial Reports

BOARD BOX ITEM # 4

AUGUST 19, 2011

TO: BOARD OF DIRECTORS
FROM: ACCESS SERVICES MANAGEMENT STAFF
RE: EXECUTIVE SUMMARY UPDATE FOR JUNE 2011

STEVE CHANG - DIRECTOR OF CONTRACT ADMINISTRATION

Operations update: With over 200,000 trips performed in June, all service regions experienced above 91% on-time performance! In fact, we completed the month of June at 92.14% on-time and 0.05% Late4, which brings the year end performance to 91.61% on-time with 0.09% Late4 (Access Performance Standards: 91% on-time and 0.10% Late4). Access and provider staff members alike are very proud of our efforts in not only finishing the last month of the fiscal year on a strong note but also finishing the fiscal year meeting all performance standards. The Operations team is looking forward to presenting to the board at the August 2011 Board meeting on all of our major accomplishments.

David Foster - Project Administrator, West Central and Eastern Regions - From a performance standpoint, both San Gabriel Transit the Eastern Region service provider, and California Transit, the West Central Region provider, exceeded the key operations performance standards. The West Central Region achieved an on-time performance of 91.98% and a Late 4 percentage of 0.01%, while the Eastern Region had an on-time performance of 92.53% with a Late 4 percentage of .04%.

On June 14 Access conducted a community meeting in the West Central Region at Plummer Park in West Hollywood. The customers in attendance had insightful questions and great suggestions, and the service provider staff provided refreshments, assisted in answering questions and addressing concerns. Also in attendance were Community Advisory Committee members Michael Williams, Toni Hemphill, Nicole McGuire and Michael Arrigo, as well as Access Board member Sandy Varga. The presentation covered topics in the area of Travel Training, Free Fare Program, Smart Drive, Marking and Tethering Program, and the Role of the OMC.

In addition to providing an overview of the marking and tethering program, each meeting was also attended by a staff person from the CARE Evaluation Center that works in the marking and tethering department; this staff person was available to mark or tether mobility devices for the community meeting attendees.

Access also conducted a promotional event at both the Eastern and West Central Region service providers to promote participation in the second annual Access Roadeo.

California Transit is anxious to repeat last year's team victory and their sister company San Gabriel Transit is extremely motivated as a result of California Transit's victory to bring home the trophy this year.

Geetu Banerjee - Project Administrator, Northern and Antelope Valley Regions - From a performance standpoint, MV Transportation continued its trend of consistently exceeding performance standards. For the month of June, the on-time performance was at 92.18%, and Late4 was at 0.02%. MV completed 50,896 passenger trips which is a 4.5% increase in comparison to the same period last year.

The Antelope Valley Region experienced an increase in ridership throughout the month of June. Southland Transit (STI) completed 6,516 passenger trips which is an 11.6% increase in comparison to the same period last year. The increase in trips did not hinder STI's efforts to exceed performance standards and they closed the month with an on-time performance of 92.66% and 0.06% Late4.

On Thursday, June 9th Access Services' Operations Department scheduled a community meeting in the Antelope Valley Region at Lancaster Regional Library. The meeting was well attended with approximately 30 people in attendance. Representing STI were General Manager - Dan Thomas, Director - Scott Manchan, Trainer - Dan Feil and Community Relations Manager - Anne Perkins-Yen. In attendance from Access Services were Dispatch Coordinator - Cynthia Perkins and Road Supervisor - Rogelio Gomez. Staff gave an educational presentation that covered topics on travel training, Free Fare, Mobility Management and encouraged customers to take advantage of these programs. We also talked about the safety initiatives Access has implemented in the last fiscal year with Smart Drive and Wheelchair Tethering Marking project. Access and Southland Transit staff answered many of their questions related to service. The positive feedback we received from customers was that they appreciated the service and the quality of customer service provided by STI drivers.

Geoffrey Okamoto - Project Administrator, Eligibility - CARE Evaluators participated in Santa Clarita's community meeting by providing marking and tethering services to those in attendance. In an effort to improve no show and late cancellation procedures for Appeals Specialists, the eligibility team met with the Appeals Specialists to discuss ways in which no shows and late cancellations can be reduced. In an effort to improve customer experience, CARE Evaluators and its Cert Trip provider San Gabriel Transit have started discussions on ways to improve routing of the cert trips to allow more efficiency and coordination of pick-ups and drop-off times.

Alfredo Torales- Project Administrator, Southern and Santa Clarita Regions - Global Paratransit Inc (GPI), the Southern Region provider, finished the Fiscal Year 10/11 by providing 678,658 trips with an on-time performance of 91.4%. Furthermore, GPI finished the fiscal year exceeding all operational performance standards. A lot of progress was made during the fiscal year towards making the Southern Region safer for Access customers. In June, key GPI staff members participated in a 3-day long training on Emergency Preparedness. The emergency preparedness training helps GPI to be ready for any major natural disaster or incident that could significantly affect Los Angeles County. GPI continues to improve its utilization of the onboard camera system "Smart Drive" by increasing the coaching sessions with drivers to enhance their safety awareness.

Santa Clarita Transit (SCT), Santa Clarita Region provider, serviced 3,304 trips in June and 37,199 for the entire fiscal year, a 14 percent increase from the previous year. The growth in the region is affecting the reservation hold times, however, SCT managed to meet all the operations standards for the year. On June 1, Access staff along with Santa Clarita Transit staff held a community meeting at the Santa Clarita Senior Center. The community meeting allows local customers an opportunity to provide Access feedback. Customers described concerns about travel times and limited resources, but also acknowledged that Access has improved overall in the last 10 years.

SEAN FRYE, DIRECTOR OF CUSTOMER SUPPORT SERVICES

Customer Service, Customer Care, and Operations Monitoring Update:

Customer Service Center - The Customer Service function of Customer Support manages various forms of information intake, provides voluminous education and executes administrative functions throughout the Customer Support Center. As we know, June represents the end of Fiscal Year 2011 (FY11) during which Customer Service agents answered a total of 212,145 calls. Quite a hefty call volume! Customer Service was also able to meet the monthly Average Initial Hold Time (AIHT) eleven out of the twelve months that comprised FY11, with an annual average of three minutes. Customer Service agents received a grand total of 265 commendations from thankful Access customers in 2011 as well. Quite a lot of satisfied clients! Now on to June's performance. Customer Service noted a higher number of calls coming through the Center during the last month of the passing Fiscal Year. A total of 17,947 Customer Service-type calls were registered in June, equating to an average of 815 calls per business day. Illustrated, that would represent an increase of 7.7 % from total calls registered in May 2011. Almost double the amount of calls were handled through "Outside Assistance" (1,210 calls in June, compared to 633 in May), who are Access employees from other departments specially trained to process customer service calls - a clear demonstration of the team approach that Access takes with every challenge it faces!

Customer Care Center - Customer Care is excited to report that Fiscal Year 2011 (FY11) complaint totals reflect a marked increase in positive service, overshadowing previous years. The 11,061 concerns registered with Access in FY11 (only 921 per month on average) represent nearly a 10% decrease in complaints compared to FY10. October 2011 got a little "scary" with 1,155 concerns registered (a relative anomaly compared to other months reported), but February brought us some "love" with just 732 concerns registered. Throughout Fiscal Year 2011 the top three complaint categories remained consistently Late 4, Service, and Urgent concerns respectively. And these three categories unwaveringly accounted for 50% of all incoming concerns. Working closely with Contract Administration and Access contractors, Customer Care has compiled and reported data on trending (albeit usually temporary and isolated to a single customer issue), such as excessive travel time, late dispatching of Access vehicles, booking discrepancies, drivers not meeting customers at the proper location and/or not connecting with the customer at all. It is our monthly objective to help Contract Administration assess customer feedback so that Access can drill down on the root cause of service issues, make adjustments, and find solutions. However, this report is supposed to be about June. So speaking of June, the last month of FY11 indicates that positive trending is on the rise with just 826 concerns registered (again, 10% less than FY11's monthly average). Commendations are always a

highlight of our everyday tasks in Customer Care, but no one was prepared for the colossal 5,000 acknowledgements registered for FY11 (an increase of 28% from the previous Fiscal Year) - undoubtedly our most impressive statistic to report for the year!

Operations Monitoring - The Operations Monitoring function (formerly known as "OMC") handles all urgent assistance demands of the Customer Support Center. Operations Monitoring also saw the end of the Fiscal Year 2010-2011 in June. The "OMC" was exceptionally busy this past year with a total of 63,064 calls registered, 20,487 of which were calls about Late Trips. Operations Monitoring dispatched 4,625 backup vehicles, 2,826 of which were serviced by Operations Monitoring's own limited fleet of Overflow Vehicles. Operations Monitoring agents received a total of 144 commendations from satisfied customers this past year as well. Just a few highlights of the past year included coordination and assistance with after-hours shuttle service during Metro's Gold station repairs. A site visit for senior representatives of Access contractor, Global Paratransit, was hosted by Operations Monitoring for several hours at Access headquarters. The objective of this meeting and tour (the beginning of several site visits of its kind) was to shed light on internal Customer Support Center functions in order to give Access contractors a better understanding about specifically what takes place during customer intake, how our departmental processes works, and especially about how risk management calls and concomitant issues are handled and managed on our end. But let's not forget the June report! Operations Monitoring saw a significant decrease in overall call volume during June 2011, which is always a great barometer of improved service. June requests for urgent assistance totaled 4,856, a substantial decrease (11.7%) from May of 2011 - a subset of statistics that further reinforces service improvement for June. Operations Monitoring was able to successfully maintain both call volume and a diverse array of administrative functions to include monthly "service improvements" that each agent must complete for at least one customer, assessment of location evaluations, auditing customer trips for ride time comparability, navigation of No Show disputes, and coordination of appeal hearing transportation. No doubt, a great year for Customer Support and Access Services across the board!

LUIS PACHECO, SAFETY ANALYST

The Access Driver Safety Incentive Program

It has been over a year since the Access Driver Safety Incentive Program started tracking driver miles and we can proudly say that the program has been a success in many ways. Along with other safety initiatives, the program has helped reduce accidents and incident claims filed against Access and its contractors. In FY 2010 142 claims were reported compared to 124 in FY 2011 claims, which is about a 13% reduction.

FY 2012 looks promising as the program will continue to recognize and reward drivers for their commitment to safety.

Smart Drive

June started on a positive note by reporting an increase in the percentage of Category 3 and 4 events coached by the service contractors. The contractors are now working closely with drivers to continue this positive trend and one step they have taken in addressing the

coaching process has been to designate a staff person that meets with drivers and coaches them accordingly. Responding quickly in addressing driving behaviors is important and SmartDrive helps coaches and fleet managers to quickly answer the most important questions and take corrective actions. Who are my riskiest drivers and what the riskiest behaviors are and how often are they occurring are just a few questions that are answered by coaching appropriately.

ANDRE COLAIACE, DIRECTOR OF GOVERNMENTAL SERVICES

In addition to making and answering calls for mobility management (and in customer service), both Stephen Wrenn and I participated in outreach events in the City of Downey and in East Los Angeles. Over the past couple of months it has become apparent to both Stephen and I that more of our customers (call us or we call) are asking for more resources and making more complicated unique requests for referrals that require much more time to research as well as much more time dedicated to individual customers.

BOARD BOX ITEM #5

AUGUST 19, 2011

TO: BOARD OF DIRECTORS
 FROM: C.J. SMITH, OPERATIONS ANALYST
 RE: OPERATIONS REPORT FOR JUNE 2011

Below is a summary of the key operating statistics for June 2011, as well as, operation data for the previous month (May 2011) and Year to Date (YTD):

MONTHLY OPERATIONS REPORT SUMMARY

	Current	Last Month	% change	YTD
